**PetWatch Announces Partnership with Nationally Recognized
Center For Specialized Veterinary Care in New York**

Westbury, NY – PetWatch Animal Hospitals, Inc. (“PetWatch”) today announced a partnership with The Center for Specialized Veterinary Care (“CSVC”), a leading 24 hour emergency and critical care referral veterinary medical center that serves as a national model for many veterinary emergency critical care and referral centers.

Located on Long Island in Westbury, NY, CSVC is a state-of-the art animal hospital where the emotional needs of the pet's entire family are as important as the veterinary care provided. Board-certified veterinary specialists in all fields work as a team providing the utmost in comprehensive patient care. CSVC is the world's first center that accommodates pet owners who choose to stay with their pets at all times while the pet is hospitalized.

“By having specialists in areas as diverse as oncology, neurology, endocrinology, surgery, nuclear medicine, dermatology, and newer and evolving fields like rehabilitation and alternative medicine, and building onto our already impressive specialty and emergency staff we provide the highest level of veterinary care and offer pet owners the most options when facing medical challenges,” said Diane Levitan, VMD, Diplomate ACVIM, CSVC’s Hospital Director, “The level of care that we provide allows our patients and their families to enjoy the best possible quality of life.”

The partnership between PetWatch and CSVC brings together a powerful combination of the expertise and resources that are necessary to build, as L. Peter Smith, Chief Executive Officer of PetWatch put it, “an advanced, innovative model for exceptional animal care that will set the market standard.”

“We have serendipitously found the right partner to help us fulfill our dreams for CSVC,” said Dr. Levitan, the original owner of CSVC. “PetWatch brings the background, expertise and resources to carry CSVC to the next level of our planned development. We are thrilled to have the new resources to allow us to remain the leading specialized and emergency care veterinary center available for pets today.”

“This partnership is an important step as we use CSVC as a model for additional leading specialty and emergency care centers in the country today. We are excited to be able to join the owners of CSVC in promoting their vision of animal care,” summarized Smith.

About PetWatch

Founded in 2007, PetWatch brings to its veterinary partners extensive management and financial resources, best business practices, and the requisite animal care market expertise to increase productivity, profitability and patient value -- enabling practicing professionals to return to the real business of their business – helping animals in need. The “PetWatch Partnership Model” is built upon a triple bottom line business philosophy designed to enhance the quality of care, services offered and practice of 21st century veterinary medicine while – simultaneously – increasing operational efficiency, market share and the bottom line. The PetWatch network is committed to delivering the highest quality primary, emergency and specialty care medicine. Our centers of excellence and staff specialists are dedicated to the principals of modern veterinary medicine, providing state-of-the-art critical care to animals across all fields – oncology, neurology, cardiology, internal medicine, dermatology, and surgery. About CSVC

The Center For Specialized Veterinary Care has been recognized by The Today Show, Fox 5, The Nightly News, Time Magazine, NY Times and many other major networks and major press as a leading 24-hour veterinary emergency, critical care and referral Center dedicated to providing the best possible veterinary care available. CSVC believes in working closely with pet owners and referring veterinarians and inviting them to be a part of their pet and patient’s care. CSVC has the world's first center where pet owners can stay with their pets at all times while the pet is hospitalized. They provide the highest level of veterinary care and offer pet owners the most options when facing medical challenges. CSVC recognizes that pets are an extremely important part of many family's lives and that they deserve and can have the same level of care and compassion that their human family members expect for themselves.
